WHAT'S NEW

Checkmark Promotion

This year one of the focus areas for COABC is promotion of the Checkmark. Thanks to Mary Forstbauer this promotion has been moving forward. Using a shared payment model, we have been able to publish two ads in large lower mainland publications. We will look to expand to the Interior and Island regions in the coming months to create a valuable promotional opportunity for all our members.

The first of two ads in the Edible Vancouver has been published. The Edible Vancouver Summer edition, featuring our ad is on shelves now in the lower mainland. It is now posted to <http://onlinedigeditions.com/publication/?i=70840&p=1>.

In addition, on June 15 the Vancouver Sun will publish its Summer Food Extra. The COABC has secured a space in the pullout section to promote the checkmark and COABC. A number of our members have purchased ad space and will be featured as well.

So far this promotional campaign has been made possible by the support of individual members. Each member appearing in these ads has purchased their spot and in doing so has helped pay for the ad itself. These mutually beneficial projects are a great example of how the organic community can work together to achieve goals. Thank you to everyone who has purchased ad space.

If you would like to participate in this campaign or if you have suggestions of publications that would be willing to work with COABC, please email the office at admin@certifiedorganic.bc.ca.

ONGOING

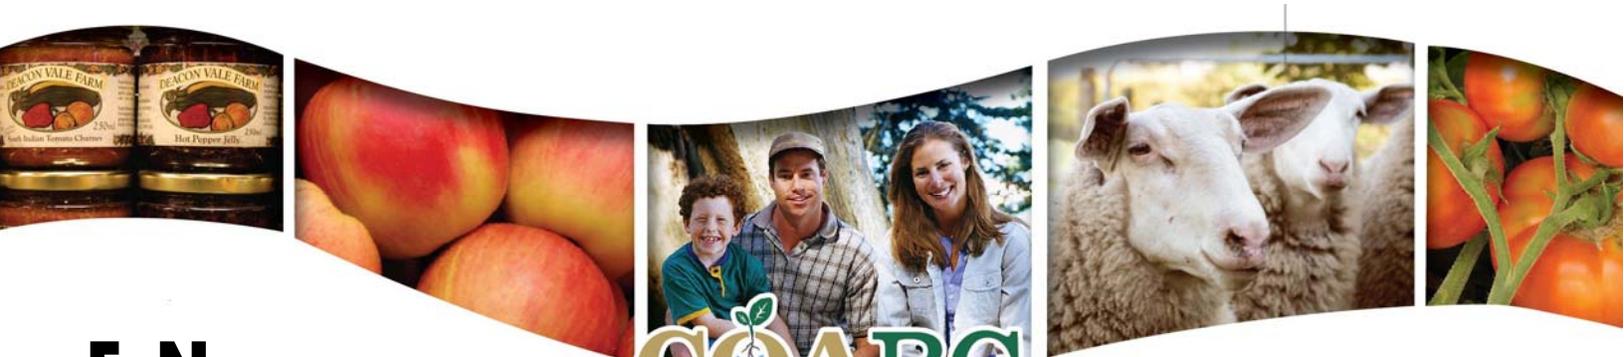

Newsletters for supporting organizations

Every month the COABC receives newsletters from organizations with related interests or with whom we are members. So as not to repeat everything written, take a moment to read their newsletters.

- **BC Agriculture Council** COABC is a member under the Community Agriculture seat. http://www.bcac.bc.ca/index.php?page_id=2

BC CERTIFIED ORGANIC CHECKMARK LOGO

The logo of the BC Certified Organic program is a key tool to identify certified organic products in BC. It is important that the symbol is used correctly; here is a quick reminder, especially for websites and the exclusion zone (white space.) The Program Symbol is enclosed by a black border. The border ensures that the appropriate white space or exclusion zone is provided around the composite mark. The Program Symbol must be enclosed by the border if the Symbol is applied against colored or complex backgrounds. However, if the background is white or off-white, it may be desirable to omit the border while ensuring the appropriate exclusion zone.
